DAMAGE EXTENSIVE - Both the driver and passenger in this accident, which occurred in Bay Roberts Friday, Jan. 21, were taken to hospital. A Chev Cavalier collided with a utility pole in front of Dominion on the main highway at 8:20 p.m. A spokesman for the Bay Roberts Volunteer Fire Department said the female passenger was extricated from the vehicle with little problem and taken to Carbonear General. Firemen had a more difficult time removing the male driver due to extensive damage. The roof and driver's door of the vehicle were removed and the dashboard had to be lifted out. The man was then taken to Carbonear General. The fire department did not report the extent of injuries sustained.
