Learn Not To Burn Update

THANKS TO LEARN NOT
TO BURN PARTNERS

This is the beginning of the ninth year of The Learn Not to Burn Program by our Association. The year got off to a great start; I visited 8 schools in September month and saw 393 students.

In October month I visited 16 schools and saw 1213 students. The highlight of the month was during Fire Prevention Week when I attended St. Francis of Assisi in Logy Bay with Fire Commissioner Hollett and Sparky.

In November month I visited ONLY 3 schools and due to the H1N1 flu and the restrictions the Department of Education had on the schools, I was unable to get into the schools. The restriction was to be lifted by the middle of the month but instead was extended to Nov 30th. Hopefully I will be able to visit schools in December month.

Up to the end of November I visited 27 schools, and approx 1800 students.

I would like to take this opportunity to wish our Corporate Families, Students, Staff, Volunteers and Our Association a Merry Christmas and a Fire Free Happy New Year.

Some pictures of my visits: Picture 1 is Fred reading to the students at St Francis of Assisi in Logy Bay. Picture 2 is Students and firefighters from Logy Bay during Fire Prevention Week. Picture 3 is Bay Roberts Firefighters with Sparky. Picture 4 is Trout River Fire Hall.
